

Level 1 & Varsity Class Descriptions: included FREE w/ Varsity Elite

TPC offers our level 1 training classes as an included part of this membership. The same staff and training methods that have helped to develop many of the area's top players is now available to you through our Elite program. Develop your players skills with ongoing training in all skills and disciplines within the game.

Pitching - Develop consistency and velocity while promoting arm health and safety with our pitching classes. Work mechanics, command, off speed, velocity building and much more. Flat Ground, mound, shadow and band work are included.

Hitting—Develop your individual swing with our expert staff. Work on setup, balance, posture, bat path, pitch recognition and much more. Tee work, soft toss, front toss, shadow drills included.

Catching—Catchers will work on set up, receiving, pitch calling, blocking and throwing. Often paired with a pitching class, Elite catchers will often have the chance to practice test their skills periodically catching live pitchers. Catchers participating are required to bring their own gear.

Speed/Power/Agility—Baseball is an explosive , lateral and rotational sport. The speed/agility class is focused on improving player foot speed, quickness, linear, lateral and rotational power as well as joint stability and injury prevention exercises.

Conditioning—Fundamental conditioning is more than running poles and doing so elastic cords. Our conditioning classes address the basic fitness needs of our high school students. From basic mobility/flexibility, to body weight strength exercises, this level 1 conditioning class will get you into the cardio vascular shape you need to maintain peak performance and recovery.

Weight Lifting—Weight training is a must for baseball players in all positions once in high school. While a weight room may be available to your player elsewhere, the knowledge, technique and lifting needs of your player are likely not addressed without expert, baseball specific trainers. Our level 1 weight training classes will teach the player what to lift, when to lift and how to lift, keeping him/her healthy and peak performing.
